*An invitation, an opportunity*

## **The Columbarium**

The Mount Calvary Foundation extends this welcome, this privilege to church members and their families to be inurned in the church memorial columbarium. The columbarium has been designed to hold two persons per niche in separate urns, with memorial plaques engraved on the front. Located in the Atrium, the niches are made of the same strong, secure, appealing Kasota stone to match the structure of the Church.

Arrangements are underway to incorporate family stories, histories, and pictures of those inurned in a memorial database as part of the Church website.

### **Dignified, Peace of Mind Pre-planning, with Affordability at the Center**

A rewarding inurnment in a location easily accessible to family members and friends. Care and vigilance of your resting place is guaranteed by Church administration. Pre-planning today brings sensibility, sensitivity, accuracy, and satisfying decisions to all involved. And the cost is known, guaranteed, and can be met in advance or scheduled during final arrangements.

The treasured memorial is valued at \$2000 per niche plus \$500 for a second urn if desired. This one-time cost covers everything; the cost of the urns, engraving, care and maintenance forever. Your investment provides an automatic tax deductible expense of \$1500, the portion that is a contribution to the Foundation. Your investment lends financial support to many church sponsored and community based programs.

Non-members may also be considered for inurnment at the discretion of the Pastoral staff.

### **Secure, Demonstrating Care, Concern and Love**

Reasons you should include the columbarium as part of your estate plan:

- A familiar location.
- In your church home, forever close to your community of faith.
- A wise stewardship of the earth and your financial resources.
- An opportunity for you to create a legacy that endures.
